GENERAL INSTRUCTIONS

The species on the *Checklist of the Birds of New York State* are those accepted by our New York State Avian Records Committee (NYSARC). For your listing reports, **DO NOT INCLUDE** in your numbers any hybrids, subspecies, forms, released or escaped birds or **any species not yet on the official Checklist**. Just a few examples of birds not to be included in your reports are: Trumpeter Swan, Chukar, "Great White Heron," "Brewster's Warbler," "Oregon Junco." In some cases, the bird may eventually be included in the *Checklist*; have patience. You may, of course, keep anything you want on your personal lists, but for reporting here, please conform to the rules we ask everyone to follow.

Only one report per form. Make copies - both sides - for additional reporters.

All reports are for individual Life Lists with the one exception of an individual New York State 2010 Annual List. (No club lists or other joint or communal reports, please.)

For definitions of the boundaries of the ten Regions, refer to any recent issue of *The Kingbird* or visit <http://nybirds.org/RecordsEditors.htm>. For definitions of pelagic boundaries, see discussion in the 1999 list report in *New York Birders*, October 2000, also available at <http://nybirds.org/RecordsReporting.htm>.

No attempt is made to verify, screen or otherwise edit any reports.

NYSOA LIST REPORT FORM 2010

Be sure to read and complete the other side of this page. Report all totals as of 31 December 2010.

No reports submitted in previous years are carried into the next published list - the slate is wiped clean each year. If you want your lists published this year, submit them on this form, even if they haven't changed.

For the State and Regional categories, there are reporting thresholds, as indicated. Reports below the thresholds will not be published. There are no thresholds for County Lists.
