BANDING EVENING GROSBEAKS

It is especially interesting to note that from October 31 to January 7, 1952, Mrs. Gerald Fitzgerald has banded 635 Evening Grosbeaks. She has had recoveries from the following places: Port Credit, Ontario, Canada; Hardwick, Mass.; Pleasant Volley Sanctuary, Lenox, Mass.; and one from Lewiston, Me. From the latter, a male, No. 40-232907, banded Feb. 4, 1947 by Mrs. Geo. E. Ramsdell. The Fish and Wildlife have not yet sent in a report on the other recoveries made. Mrs. Fitzgerald has received word from Mrs. Eleanor Dater of Ramsey, N. J. and from Mr. Bruce Yeager of Northumberland, Pa., that they have recovered birds which she has banded. One was found with a broken wing, illustrating perils of migration.

Mrs. I. A. Rosa
