MRS. ALLAN D. CRUICKSHANK is widely known for her writing and nature photography.

She is author of several books including "FLIGHT INTO SUNSHINE" and "BIRD ISLANDS DOWN EAST." A portfolio of her color photographs was published as a series of four charts last year by *Woman's Day* . . . a multi-million circulation general weekly. She is well-known to the thousands of adult campers who have attended the Audubon Camp of Maine since its inception in 1936.

"... Stood Up Through Everything ..."

WRITES MRS. ALLAN D. CRUICKSHANK: "I was fortunate when I first began serious bird watching to be guided by experts who recognized the need for excellent binoculars. They carefully inspected many kinds in search of one having a combination of central focusing, a wide field, vivid definition and a true rendering of color and pattern. At their recommendation I bought a 9X, 35mm Bausch & Lomb as best for my purpose. Since 1935 this binocular has been in constant use on desert sands that stopped our watches, on salt water, in tropic heat and on snowy mountains. It has stood up through everything so well that it is as good as new."
