NOTICE

THE FEDERATION OF NEW YORK STATE BIRD CLUBS

ANNUAL MEETING

Ithaca, N. Y.

August 28 - 29

Those intending to read papers please write Dr. P. P. Kellogg,
Committee Chairman, at Dept. of Conservation, Fernow Hall,
Cornell University, Ithaca, N. Y.

DR. ARTHUR A. ALLEN was the first Professor of Ornithology in a North American University, and Cornell is justly proud of his achievements. Over 10,000 students have learned about birds from him; his books and lectures, and color photographs of birds are outstanding in beauty and technical perfection. Dr. Allen is a long-time contributor to *National Geographic Magazine*, a contributing editor of *Audubon Magazine*, and Audubon Screen Tour lecturer. His newest book is "STALKING BIRDS WITH A COLOR CAMERA."

"A Good Binocular Makes Easy Identifications"

WRITES DR. ARTHUR A. ALLEN: "Since there are no blue or green pigments in the feathers of American birds, the observed color will depend on the angle of the light and the clarity of the image. A good binocular, highly corrected for color aberrations, makes easy identifications — poor binoculars may be misleading."
