**FRED J. PIERCE** has been editor of *Iowa Bird Life* for 24 years, and is head of the *Pierce Book Company* which deals in Natural History books. He is author of hundreds of articles on birds, and editor of *Althea Sherman's* book "*Birds of an Iowa Dooryard*". He has been a student of birds for 37 years, and his contributions to the field have been honored by his election (one of 200 in America) to "Member" of the American Ornithologists' Union.

*"A bird student is judged by the binocular he uses"*

**WRITES FRED J. PIERCE:** "A field trip is usually an integral part of a bird convention (and the conventions or meetings are among the most important activities of bird societies). When bird students get together and go on field trips, there is an array of various makes of binoculars. The alert bird student, who wants to see the most birds and enjoy a sharp, clearly defined picture of the individual bird, chooses a Bausch & Lomb. It is surprising how many Bausch & Lomb binoculars are present at every gathering of bird students. The old saying that 'a man is judged by the company he keeps' could be paraphrased into 'a bird student is judged by the binocular he uses.'"
