FARIDA WILEY is assistant chairman of the Dept. of Public Instruction at the American Museum of Natural History. For many years she has conducted natural science field trips sponsored by the Museum, and is an instructor at the Audubon Camp of Maine. Miss Wiley is the author of "Ferns of Northeastern United States", and compiler of "John Burrough's America" and "Ernest Thompson Seton's America".

"... An invaluable aid to the naturalist ..."

WRITES FARIDA WILEY: "On Museum bird walks in Central Park I have come to realize that those persons who use binoculars of high quality get much more pleasure out of their hours afield. A glass, such as Bausch and Lomb, that is free of color distortion and which produces sharp, bright images even under dim light conditions, is an invaluable aid to the naturalist whether he be professional or amateur.

Farida C. Wiley
