

YOUR PRESIDENT SAYS

Come to Elmira for our eighth annual Federation Meeting on May 28 and 29. Detailed plans for this meeting will be in your hands before you receive this issue of the *Kingbird*. Mr. Albert Fudge, chairman of the Federation Program Committee, and Mr. Ryan, chairman of the Local Program Committee, are making plans which assure us an interesting and enjoyable meeting, banquet and field trip.

Many members will have an opportunity to go birding for the first time in this southern tier region. It is one of the few places in central and western New York where the Worm-eating Warbler can be found nesting. The beauty of the Chemung River Valley is appealing to the eye, and our hosts — the Chemung Valley Audubon Society — a very friendly organization. What more need I say.
