

## EDITOR'S NOTE

With a backlog of excellent articles ready to go, and with an eye toward improving *The Kingbird's* longstanding publication delays, I have taken a rather radical approach to the contents of the last published and the present issues. The Fall 2022 Regional Reports have been divided between Volume 73, Number 1, and this issue, Number 2, which includes the Highlights of the Fall 2022 season. Number 3 will thus include the Winter season reports.
